

soa-plus-plus/Testing/diamondProblem.cpp

```
graph TD; A[soa-plus-plus/Testing/diamondProblem.cpp] --> B[iostream]; A --> C[string]; A --> D[typeinfo];
```

A diagram illustrating the dependencies of the file `soa-plus-plus/Testing/diamondProblem.cpp`. The file name is contained in a grey rectangular box at the top. Three blue arrows originate from the bottom of this box and point downwards to three separate white rectangular boxes. The boxes are labeled `iostream`, `string`, and `typeinfo` from left to right, representing the standard library headers that the file depends on.

`iostream`

`string`

`typeinfo`
